

It can cost you
\$48,000
when staff leave...

and it's putting your
business at risk.

*Isn't it time you did something
about it?*

Help is at Hand

Staff problems are in the top 3 issues for Australian Businesses.

- *How do you attract good staff?*
- *How do you keep them?*

It is critical to get it right because HR issues are dragging down business performance and even impacting on businesses ability to grow. Some are not coping and have been forced to close the doors.

With the change in legislation, it is even more important that we do the right thing in our employment relationships.

"Take my 20 best people and virtually overnight, Microsoft becomes a mediocre company."
